

Idaho Sequential Intercept Mapping Information Collection

Updated March 18, 2024

Instructions:

Please use this guide to collect information about the resources available in your area. Be sure to consult government, nonprofit, and tribal stakeholders. We will use this information to plan for the SIM workshop and develop the SIM map and report afterward.

Intercept 0 - Community Resources and Crisis Care

General Community Resources

Community Resource Lines

Identify the options for individuals to obtain information about community resources.

Call 2-1-1
Findhelp.org or FindhelpIdaho.org

Emergency Housing Providers

Identify the homelessness and housing service providers in the community and the number of emergency beds for each.

--

Transitional and Sober Housing Providers

Identify the providers of transitional and sober housing and the number of beds available for each.

--

Transportation

Identify public or low-cost transportation options available to the community.

--

Veterans Service Providers

Identify the providers of veterans' services in the community.

--

Intercept 0 - Community Resources and Crisis Care cont.

Behavioral Health Resources

Behavioral Health Warm Lines or Resource Lines

Non-emergency line for obtaining mental health support or referrals for behavioral health resources.

NAMI HelpLine

Call 1-800-950-NAMI (6264), text "HelpLine" to 62640 or email to helpline@nami.org
Available Monday Through Friday, 10 A.M. – 10 P.M., ET.

Behavioral Health Service Providers

Identify the providers of non-emergency mental health and substance use services in the community. These can include CCBHCs, SUD Treatment, Inpatient and Outpatient Treatment

Recovery Centers

Identify the peer recovery centers operating in the area.

Intercept 0 - Community Resources and Crisis Care cont.

Crisis Continuum Resources

Crisis Hotlines

List the organizations which operate 24/7/265 crisis hotlines in the community and the number of annual calls received, if known.

9-8-8

Mobile Crisis Outreach Teams

Provide the contact information for the mobile crisis outreach teams available for this area, the annual number of face-to-face responses provided, number treated in place, and percent of repeat calls.

IDHW Regional Mobile Crisis Team

Crisis Centers

Identify the crisis centers operating in the area and describe the eligibility criteria and services provided. Provide the annual number of center admissions, if known. These locations may include behavioral health urgent care, crisis stabilization, sobering unit, withdrawal management unit, crisis residential unit or peer respite. They may have beds or observation chairs with varying length of stays from less than 24 hours to several days.

Regional Crisis Center

Hospitals

List the names and addresses of all hospitals serving the area. Provide annual counts of emergency department admissions for psychiatric reasons, and average length of stay in hours for those with inpatient psychiatric units.

--

INTERCEPT 1 – First Responders

Dispatch/Emergency Communications/911

Instructions: Identify the emergency communications/911 agencies in operation, including the services and jurisdictions covered. List the number of staff coverage and any specialized training staff have received (e.g., CIT). If known, report the following numbers:

- Total number of law enforcement responses
- Number of mental health crisis call responses
- Number of mental health crisis calls responded by CIT-trained officers or Co-Responders

Law Enforcement

Instructions: Identify all law enforcement organizations serving the jurisdiction (police, sheriff, tribal, campus, etc.). For each organization, list the number of sworn officers and any specialized training.

INTERCEPT 1 – First Responders cont.

Emergency Medical Services

Instructions: Identify the emergency medical services providers serving the jurisdiction, such as Fire/Rescue. Describe any specialized behavioral health training received by EMTs.

Mental Health Co-Responder Programs

Instruction: Co-responder programs feature a law enforcement officer/first responder and mental health professional responding together to a person in a mental health crisis. Identify the program name and provide a brief description (e.g., participating agencies, target population).

INTERCEPT 2 – Initial Detention/Initial Court Hearings

Initial Detention and Booking

Identify the location(s) where individuals are booked and held immediately following arrest and describe any behavioral health screenings conducted at intake.

Provide the annual number of jail bookings.

Behavioral Health Diversion Programs or Deflection Programs

Describe any diversion or deflection programs offered at this intercept, such as law enforcement diversion programs. Describe any eligibility requirements.

Initial Appearance

Describe the process for the individual's initial appearance.

Competency and Restoration

Describe the process for the individuals found not competent to stand trial. Provide the number of competency hearings as a percentage of all criminal cases.

Intercept 3 – Jail / Courts

Jail

List the capacity and current number of prisoners, number of deputies, and other jail staff such as case managers or social workers. Describe the level of medical and behavioral health services provided. Note any additional programs available to inmates. If known, report the following annual numbers:

- Number of jail mental health screenings and the percent positive
- Number of jail substance use screenings and the percent positive
- Numbers of prisoners receiving psychotropic medication
- Average length of stay (days)
- Average length of stay for population with mental disorders (days)

Pretrial Services

Identify any pretrial services offered and the organization that provides them.

Public Defender

Describe any non-legal services provided by the public defender's office, such as social workers.

Treatment Courts

Instruction: For each treatment or problem solving court in the jurisdiction, identify the eligibility criteria and capacity.

Other Diversion Programs

Describe any other diversion opportunities available at this intercept.

Intercept 4 – Reentry

Jail Reentry

Describe any reentry services provided by the jail itself, as well as coordinating and inreach services provided by outside organizations.

Prison Reentry

Describe any reentry services provided to the prison population provided by IDOC, as well as coordinating and inreach services provided by outside organizations. Distinguish if services are only available for those on early release.

Community Services

List any organizations providing reentry services in the community and describe the available services.

Intercept 5 – Community Corrections

Misdemeanor Probation

Identify the entity providing misdemeanor probation, number of probation officers and any behavioral health training received (e.g., CIT), number of individuals on misdemeanor probation (or caseload size), and any specialized caseloads or behavioral health services provided.

Felony Probation and Parole

Number of IDOC probation and parole officers and any behavioral health training received (e.g., CIT), caseload size, specialized caseloads, and other behavioral health services provided.
