**IDAHO DEPARTMENT OF CORRECTION  
MENTAL HEALTH DISCHARGE SUMMARY FOR RETAINED JURISDICTION**

**IDOC Levels of Care**

**MH- 6 – Acute Correctional Mental Health Services (ACMHS)**

- This LOC is for incarcerated individuals with the most profound and debilitating impairments in functioning. These incarcerated individuals may present a serious risk to the safety of self and others. Those at this LOC must be housed in a specialized Acute Mental Health Unit unless imminent security issues exist, in which case alternative placement must be approved by the chief psychologist and facility head.

**MH- 5 – Intermediate Correctional Mental Health Services (ICMHS)**

- An incarcerated individual at this LOC demonstrates some significant functional impairment. These incarcerated individuals require specialized housing with a treatment goal of improving functioning and returning to general population. These incarcerated individuals must be housed in a Behavioral Health Unit or Acute Mental Health Unit, unless imminent security reasons exist, in which case alternative placement must be approved by the chief psychologist and the facility head.

**MH- 4 – Mental Health Assessment Period (MHMN)**

- This LOC is designed for incarcerated individuals who experience an acute stress response to a situation or for whom additional assessment is needed.

**MH- 3 – Mental Health Services**

- This LOC indicates an incarcerated individual who is diagnosed with a mental illness and demonstrates some functional impairment. Incarcerated individuals on this LOC may require housing in a specialized unit or may be able to be housed in general population.
